

QSpec Vision gives you the edge in.....

- ✓ Capping Process
- ✓ Filling Process
- ✓ Product Inspection
- ✓ Quality Control
- ✓ Lot Tracking
- ✓ Product Traceability

Everything you need to know about your production process is **at your fingertips!**

QSpec Vision

The QSpec Vision provides in-line quality control system to inspect & track your product that is powerful, cost effective and scalable

Key functionality:

- ✓ Automate your cap and fill level inspection
- ✓ Accurately inspect cap, fill level and safety seal
- ✓ Provides 100% product inspection
- ✓ Improve product quality by reducing spillage and contamination
- ✓ Verify all printed data including Lot Numbers & Expire dates
- ✓ Generate full traceability for quality control – Evidence of Inspection
- ✓ Inspect multiple product on single system (250ml, 500ml or 1L)

Cap & Fill Inspection

Bar Code Verification

Lot Tracking

Now you can inspect & track your **critical** manufacturing processes affecting your business.
